

Ed Greenslit

Ed was born in Baltimore, Maryland in 1955, and grew up in the Parkville area. He graduated from Parkville Senior High in 1973, and then attended Towson State College (now Towson University) for two years before transferring to Gettysburg College. He graduated from Gettysburg College in 1977 with a Bachelor's Degree in Physics. Ed went on to the Ohio State University to complete his Masters of Science Degree in Nuclear Engineering in 1980.

He took employment with the General Electric Corporation at the Knolls Atomic Power Laboratory (now the Naval Nuclear Laboratory) where he spent the next 41 years in the design and analysis of nuclear reactors for the US Navy's submarine propulsion plants. He retired in 2021 and moved to Frederick to be closer to family and to escape the winters in Upstate New York. While living in New York, Ed was an active member of the Vischer Ferry Volunteer Fire Company for 23 years, serving in various positions, including seven years as a Chief Officer of the Company.

Ed has been married to his wife, Marsha, since 1978. They have two children and seven grandchildren, with four grandsons attending Frederick Classical Charter School. Ed's hobbies and interests include home repair (often out of necessity), reading (mostly fiction and military history), and golf.
